

St'Art BOOK

An Erasmus Experience

Erasmus+

Co-funded by the
Erasmus+ Programme
of the European Union

In 1529 Erasmus of Rotterdam wrote the text “For a Free Education” where he states his pedagogical ideas, really innovative and radical in his time.

In the opinion of the Dutch humanist, culture is the fundamental going along during the growth of each individual, so that he may become a free man, without prejudice.

The Erasmus project welcomes the writer’s open vision in the belief that the reciprocal exchange, together with the study and the comparison may contribute to establishing a pacific world without borders.
